

§2440.4 Specific criteria for segregative effect of classification for disposal.

Public lands classified or proposed to be classified for disposal will be segregated from those forms of disposal which, if the lands remained open thereto, could interfere with the orderly disposal of the lands pursuant to appropriate law. Public lands classified or proposed to be classified for sale under the Public Land Sale Act (78 Stat. 988, 43 U.S.C. 1411–18) will be segregated from all forms of disposal under the mining and mineral leasing laws.

Subpart 2450—Petition-Application Procedures

§2450.1 Filing of petition.

(a) When (1) land must be classified or designated pursuant to the authorities cited in §2400.0–3 before an application may be approved and (2) the filing of applications is permitted prior to classification, the application together with a petition for classification on a form approved by the Director (hereinafter referred to collectively as a *petition-application*) must be filed in accordance with the provisions of §1821.2 of this chapter. Lists indicating the proper office for filing of applications may be obtained from the Director or any other officer of the Bureau of Land Management. Copies of the petition for classification form and the application forms may be obtained from the proper

offices or from the Bureau of Land Management, Washington, DC 20240.

§2450.2 Preliminary determination.

Upon the filing of a petition-application, the authorized officer shall make a preliminary determination as to whether it is regular upon its face and, where there is no apparent defect, shall proceed to investigate and classify the land for which it has been filed. No further consideration will be given to the merits of an application or the qualifications of an applicant unless or until the land has been classified for the purpose for which the petition-application has been filed.

§2450.3 Proposed classification decision.

(a) The State Director shall make and issue a proposed classification decision which shall contain a statement of reasons in support thereof. Such decisions shall be served upon (1) each petitioner-applicant for the land, (2) any grazing permittee, licensee, or lessee on the land, or his representative, (3) the District Advisory Board, (4) the local governing board, planning commission, State coordinating committee, or other official or quasi-official body having jurisdiction over zoning in the geographic area within which the lands are located, and (5) any governmental officials or agencies from whom the record discloses comments on the classification have been received. If the decision affects more than 2,560 acres and would lead to the disposal of the lands, the decision will also be published in accordance with the provisions of subpart 2462.

(b) When there are multiple petition-applications for the same land, the proposed classification decision shall state which petition-application, if any, will be entitled to preference under applicable law; or where no petition-application has been filed for the purpose for which the land is proposed to be classified, the decision shall so state.

(1) When multiple petition-applications have been filed for the same land, the one first filed for the purpose for which the land is classified will be entitled to preference under applicable law.
